

VEDANT MODI

Bsc (IT)

Motivated SYBSc IT student with a growing foundation in web development and AI-powered tools. Passionate about technology, problem-solving, and continuous learning. Actively developing practical skills in frontend and backend technologies while seeking opportunities to apply my knowledge in real-world projects and internships.

EXPERIENCE

1 Month

Codsoft

Completed a one-month internship in web development, where I built responsive web pages using HTML, CSS, and JavaScript, and gained practical experience in frontend development and debugging.

2 Months

Haven

Completed a two-month internship in social media, where I worked on content creation, post scheduling, audience engagement, and basic social media strategy to improve online presence and brand visibility.

1 Month

Raichel Joseph Foundation

Completed one month of volunteering at Raichel Joseph Foundation, where I assisted in teaching students and applied MS Excel skills for basic data management and record keeping, contributing to educational and administrative activities.
